

Chunhui Wei

Ph.D. Student in Mathematics

Zhejiang University, Hangzhou, China
Ph.D. Supervisor: Professor Song Sun

chunhuiwei@zju.edu.cn
chunhuiwei736.github.io

I work in geometry and topology, with interests in complex geometry, complex algebraic geometry, and algebraic K-theory.

Education

2026–Present	Ph.D. in Mathematics Zhejiang University Supervisor: Professor Song Sun	Hangzhou, China
2024–2025	Master of Science, Mathematics and Statistics University of Melbourne Thesis: Remarks on Semi-topological Quillen-Lichtenbaum Conjecture Supervisor: Professor Christian Haesemeyer	Melbourne, Australia
2019–2023	Bachelor of Science, Mathematics and Applied Mathematics University of Science and Technology of China, School of Gifted Young Thesis: Reduced solutions of the SU-Toda system Advisor: Associate Professor Bin Xu	Hefei, China

Publications and Preprints

2026	Noncommutative Quillen-Lichtenbaum Conjecture Chunhui Wei Preprint	arXiv:2604.27373
2026	Dévissage for Algebraic K-theory of Small Stable ∞-categories Chunhui Wei Preprint	arXiv:2601.14626
2026	Solutions to $SU(n+1)$ Toda system generated by spherical metrics Yiqian Shi, Chunhui Wei, and Bin Xu Journal of Functional Analysis, 290(1), 11197	DOI

Research Experience

2026	Visiting Scholar Institute for Advanced Study in Mathematics, Zhejiang University Worked with Professor Song Sun on Kähler geometry.	Hangzhou, China
2024–2025	Research Project University of Melbourne Studied the topological K-theory of complex noncommutative spaces under the supervision of Professor Christian Haesemeyer.	Melbourne, Australia

Research Experience (continued)

2023	Research Assistant CAS Wu Wen-Tsun Key Laboratory of Mathematics, USTC Worked with Professor Bin Xu on Toda systems with regular singularities on complex manifolds.	Hefei, China
2022–2023	College Student Research Program University of Science and Technology of China Studied reduced solutions of the SU-Toda system under the direction of Associate Professor Bin Xu.	Hefei, China
2020–2022	National Innovation and Entrepreneurship Training Program University of Science and Technology of China Studied the SU-Toda system with singularities on the Riemann sphere as a team member advised by Associate Professor Bin Xu.	Hefei, China

Technical Skills

Research	LaTeX, Overleaf, Mathematica, MATLAB
Programming	Python, C, R, HTML
Languages	Chinese (native), English (advanced)
